

AESCULAP

AESCULAP EinsteinVision 3.0 FI

The AESCULAP EinsteinVision 3.0 FI is B. Braun's current third-generation 3D camera system for minimally invasive laparoscopic surgery, delivering native Full HD 3D image quality with integrated Fluorescence Imaging (FI). Its real-time ICG fluorescence supports perfusion assessment, bile duct visualisation and sentinel lymph node mapping.

- Native Full HD 3D image quality with impressive depth of field and high contrast
- Real-time fluorescence imaging with three overlay modes (FI green, FI intensity, FI white)
- Integrated anti-fogging function with heating elements at the endoscope tip
- Smoke reduction and red enhancement algorithms for a consistently clear view
- Unique 3D sterile delivery concept eliminates camera head reprocessing

Specialties: Gynecology
