

WESTERN TRADING COMPANY

Bi-Polar Lap Instruments

The bipolar instrument portfolio was created through the use of ceramic, steel and plastic materials – and the reasonable combination of these components with established manufacturing technologies. When do you convince yourself about the reusable bipolar instrument line?

Features

- Reliability:
- Good coagulation results.
- Precise grasping and dissection of tissue.
- Reduced risk of “slipping effect” when grasping and preparing due to jaw profile.
- Universal : modular design consisting of four components, facilitates the disassembling, reprocessing, maintenance and sterile supply.
- Transmission : easier force adjustment through mechanical force transmission from the jaw part to the handle.
- Economical price performance ratio : profitable use of financial resources due to modular design.
