

VALLEYLAB

# Valleylab™ FX8 Energy Platform

The Valleylab™ FX8 energy platform is the current generation of Medtronic's general electro-surgical generator, replacing the earlier Force FX. It drives electro-surgical handpieces for division, hemostasis and dissection, using TissueFect™ tissue-sensing technology to read tissue composition and adjust energy output in real time for precise effects at lower energy levels.

- Powered by TissueFect™ tissue-sensing technology that reads tissue and adjusts energy output
- Drives handpieces with precision using lower levels of energy for greater consistency
- Valleylab™ mode combines monopolar hemostasis and division in one setting
- Shared coag mode lets two surgeons work on the same patient at once from a single platform
- Equivalent power delivery for shared modes as the Valleylab™ FT10 energy platform

## At a glance

Brand / Division	Valleylab
Specialties	Gynecology, GI Surgery, Oncology, Bariatric Surgery, Urology & Transplant, Neuro & Spine
Local support	On-site demonstration · Clinical training · Installation · After-sales service
Availability	Hospitals across Gujarat, via Western Trading Company, Ahmedabad

## Also available in this specialty

Valleylab™ FT10 Energy Platform · AESCULAP EinsteinVision 3.0 FI · Maryland AdTec Monopolar · “Non-slip” Lap Needle Holders · Bi-Polar Lap Instruments · LigaSure™ Maryland Jaw Sealer-Divider

## Why Western Trading Company

- 30+ years supplying Gujarat's operating theatres — established 1995
