

MEDTRONIC ENT

## StealthStation FlexENT™ Navigation System

The StealthStation FlexENT™ system is an image-guided ENT surgery platform that combines flexible hardware configurations with tiered software functionality, allowing facilities to build a customised, economical navigation solution powered by proven StealthStation™ electromagnetic technology.

- Configurable hardware — compact cart, emitter and footswitch options — to match facility needs and budgets
- Tiered StealthStation™ ENT software functionality that can grow with a practice
- Electromagnetic tracking of navigated instruments without line-of-sight constraints
- Indicated for FESS, endoscopic skull base and lateral skull base procedures
- Compatible with NuVent™ EM balloons and navigated powered instruments

### At a glance

Brand / Division	Medtronic ENT
